WOMEN’S STUDIES

OVERVIEW

WHAT IS WOMEN’S STUDIES?
Women’s studies focus on women’s issues in history, politics, and cultural life.

WHY STUDY WOMEN’S STUDIES?
Coursework in women’s studies is supportive of four-year degree programs in women’s studies as well as the related fields of human services, education, American studies and other social sciences and humanities.

WHAT CAN YOU DO WITH A WOMEN’S STUDIES DEGREE?
Most participating students report that courses directly related to women’s studies have had a profound impact on their lives.
By viewing world events and cultures through the filters of different genders, students can gain powerful perspectives on freedom and empowerment.
Women’s studies majors learn to value the achievements of female leaders over the years while positioning themselves for their own cultural breakthroughs.

COURSES

BIOL 1125 SEX AND HUMAN DIVERSITY | 3 CR
Prereq: Eligible for READ 1106 MnTC Goals: 3, 7
A general education course without a lab for biology non-majors. An introduction to the science of biology focused on the fundamental concepts underlying human sexuality, reproduction and development from an evolutionary perspective. Topics include the evolution of sex, sex determination, anatomy and physiology of the human reproductive systems, development, infertility, contraception, reproductive health disparities and sexually transmitted diseases. Lecture 3 hours.

Credits: 3 Semesters: Fall, Spring

ENGL 1140 GENDER AND LITERATURE | 3 CR
Prereq: Eligible for ENGC 1101, and READ 1106 MnTC Goals: 6
Read, discuss, and write about works of literature from a gender-focused perspective. Topics students may explore include literary images of men and women, representations of gender in literature, portrayals of gender-based attitudes and values, and the ways in which writing can change conventional views of gender.

Credits: 3 Semesters: Fall, Spring

HIST 1131 FAMILY: SEX/GENDER/POWER: A CROSS-CULTURAL, HISTORICAL PERSPECTIVE | 3 CR
MnTC Goals: 5, 6
A social history of the family. The course examines how social, political, economic, religious, and cultural changes have influenced the structure, function, and values of family. A comparative study of the American family will be made with other cultures.

Credits: 3 Semesters: Spring

PSYC 1106 PSYCHOLOGY OF WOMEN | 3 CR
MnTC Goals: 5, 7
This course is an introduction to the psychological, social, and biological factors in the development of women including the influence of biology, the development of sex roles, personality differences in emotionality, dependency, aggression, analytical ability, female development, and mental health.

Credits: 3 Semesters: Fall, Spring

SOC 1115 SOCIOLOGY OF SEX AND GENDER ROLES | 3 CR
MnTC Goals: 5, 7
An in-depth examination of the gender roles of males, females, and transgender individuals, the concept that "biology is destiny" and the effects of sex-role stereotyping in personal lives and in relationships. LGBTQIA issues explored.

Credits: 3 Semesters: Spring

WMST 1120 INTRODUCTION TO WOMEN'S STUDIES | 3 CR
MnTC Goals: 5
Investigates the history and role of women in regard to psychological, political, sociological, philosophical, economic and religious thought, with the aim of enhancing women's knowledge, sense of self-worth, image and rights. (Same as ANTH 1120 and SOC 1120)

Credits: 3 Semesters: Fall, Spring

WMST 1121 WOMEN ACROSS CULTURES | 3 CR
Recommended: Eligible for ENGC 1101, and READ 1106 MnTC Goals: 5, 6
Global course focusing on the major institutions of family, religion, education, and economic and political systems as they define, provide for, and frequently limit women. Women's issues addressed throughout many cultures of the world. (Same as ANTH 1121 and SOC 1121)

Credits: 3 Semesters: Fall, Spring
