TITLE: FALL SEMESTER INFORMATION

As vaccines become more available and with the [Governor's recent announcement about loosening Covid-19 restrictions](#), Normandale will gradually begin a transition back to "normal" this fall. Our two main priorities continue to be delivering a quality educational experience and the safety of the entire campus community.

About a third of courses will have some in-person component, primarily in a hybrid format mixing online and in-person. Two-thirds of our courses will continue online. For specific information about the various course formats that are available to you, please see [Explanation of Course Formats](#).

For general information about campus life, please refer to our [Fall Semester Frequently Asked Questions](#).

For regular updates about the Fall Semester please continue to check the [Student Portal](#), [D2L](#) and your Normandale student email account. The [Student Services webpage](#) has a list of contact information for key Normandale resources that can help answer questions that aren't addressed elsewhere.

We look forward to seeing you in the fall – or sooner if you are taking summer courses!
