

There is much to learn in Scotland and, as such, our expectations of you will be high, completing 15 credits in the semester. You will be using the local Scottish environment as a laboratory and incorporating this learning into your classroom experience. The modular format allows focus on one class at a time, over three weeks, with breaks in between to enjoy your time in Edinburgh or travel in Europe.

Spring 2026 Application Deadline 11/1/25
